On 12/3/2020, FWCC Lt. L. Hinds and I received a report that an animal keeper was injured by a tiger at the Big Cat Rescue facility that morning. The victim was transported by EMS to St. Joseph's Hospital in Tampa. Lt. Hinds and I proceeded to the hospital while FWCC Investigator J. Buckson proceeded to the facility.

Upon our arrival at the hospital, emergency room personnel took us to the victim who was being prepared for surgery. The victim was identified as Ms. Candace Couser (dob 5/5/51). I first spoke with her husband, Mr. Charles Couser. He said that he received a phone message about the incident from the facility at 0848 hrs. He stated that his wife was a volunteer animal keeper at the facility for approximately the past four years, normally worked Mondays and Thursdays, and usually reported to work at 0700 to 0730 hrs. He reported that her left arm was badly injured in the incident to include substantial tissue damage to the shoulder and her arm was broken in at least three places.

I interviewed Ms. Couser briefly. She stated that she was feeding "Kimba" the tiger at the time of the incident. She stated that she was the only one servicing the enclosure at the time. She indicated that after she placed food in a secure area, she opened a door to allow Kimba in, but that the cat did not come. She found the cat was locked in another area of the cage complex. She stated that she opened one door and then reached in to grab a clip for a second door when the tiger grabbed her arm. She said that she screamed and other volunteers came to her aid. She said others in the area were Jane P., Mark Mera, and Gina.

At one point Ms. Couser said that she "blanked out" and it was "my mistake."

I photographed a bolt snap on the emergency room floor. Ms. Couser said she carried a spare clip in her pocket and she believes that this clip came from her pocket. She did state that the clip on the door that she was reaching for was identical.

Lt. Hinds and I then proceeded to Big Cat Rescue to assist Inv. Buckson. We were met by the owner Carole Baskins. Ms. Baskins led us to Kimba's enclosure. Ms. Baskin's explained to Inv. Buckson what she believed occurred.

I photographed Kimba the tiger, however I was unable to get close without the animal becoming extremely agitated.

INVESTIGATION

NOTE: All times and distances are approximate. All photographs are taken by Investigator Buckson unless otherwise indicated. All diagrams are not to scale and created by Investigator Buckson unless otherwise stated.

INVESTIGATION CHRONOLOGY

12/3/2020

0830 hrs. I received information regarding an incident at Big Cat Rescue involving an individual sustaining an injury from a tiger.

0920 hrs. I contacted the facility owner/operator, Carole Baskin (Baskin) who confirmed that there was an incident where a volunteer had been bitten and transported to the hospital. Baskins advised once she knew more, she would provide it.

0950 hrs. Lt. Louis Hinds (Hinds) and Inv. Bob O'Horo (O'Horo) proceeded to St. Joseph's Hospital to meet with the victim and obtain more information.

1040 hrs. while enroute to the facility, Baskin provided me with additional information about the incident (see attached).

1120 hrs. Inv. O'Horo contacted me and advised the following information based on his brief interview

Report Date / Time 12/3/2020 11:29:11 AM	Report Number ISR062637 (01)	Report Case/CAD Number FWSW20OFF023103 / FWSW20CAD029647	Reporting Officer Rank / ID INVESTIGAT / WN222	Reporting Officer Name BUCKSON, JOEL C

with the victim,

Candy Couser (Couser), at the hospital:

- Couser sustained injuries to her left arm to include: 3 separate breaks and missing flesh/tissue
- Couser advised that she was feeding Kimba at the time of the incident
- Couser proceeded to reach inside an enclosure to unclip a guillotine door to allow Kimba access to the food
- Once she reached into the enclosure, Couser then sustained the injuries from Kimba
- Couser was alone at the time of the incident

Couser was then transferred into surgery.

1130 hrs. I arrived at the facility where I met with Baskin, inspected the enclosures where the incident took place, interviewed and obtained written statements from the staff that was present at the time of the incident.

12/10/2020

0900 hrs. Myself along with Inv. Jason Cooke and Inv. Ashley Tyer conduct a 3D Faro Scan of the enclosure where the incident took place.

1500 hrs. I conducted a follow-up interview with Couser.

12/14/2020

1300 hrs. I received an email from Baskin further detailing the incident and their facility trainings/procedures (see attached).

INTERVIEWS

On December 10th, 2020 at approximately 1500 hrs. I interviewed the victim, Couser, the interview was conducted at St. Joseph's Hospital, 3001 W. Dr. Martin Luther King Jr. Blvd Tampa, Florida. The interview was digitally recorded, and the following information was obtained:

- Couser was responsible for feeding Kimba on the morning of the incident
- Couser placed the food inside the enclosure however, noticed that Kimba did not show up
- Couser walked around the enclosure and noticed Kimba was locked out of part of the enclosure
- The lockout was comprised of a tunnel pass through with two guillotine doors, one on each side
- Couser explained that these particular guillotine doors are not ones that the keepers generally raise or close
- Couser radioed the facility coordinator, Lauren Buckingham (Buckingham), to ask why Kimba

was locked out

- Buckingham stated that she did not know why Kimba was locked out, or why the guillotine doors were down
- Couser raised the first guillotine door and noticed that the second guillotine door was also down preventing Kimba from passing through the tunnel
- This particular tunnel and guillotine doors are not ones that Couser is familiar with
- Couser noticed that the second guillotine door had a clip on it preventing it from being raised
- This clip is typically used to lock a cat out of the enclosure when work is being conduct
- Removing this clip is not something that Couser normally gets involved with
- Couser opened the left guillotine door, (door closest to Kimba), before unclipping and opening the right guillotine door, (door farthest from Kimba)
- Couser reached inside the tunnel with her left arm to unclip the right guillotine door placing her back towards Kimba
- At this point, Couser received multiple bites from Kimba
- Kimba let go providing Couser the opportunity to move away from the enclosure
- Couser used her radio to then call for help
- Staff then provided first aid until EMS arrived to transport Couser to the hospital
- Couser did not remember where Kimba was exactly at, at the time of the accident
- Buckingham did not tell Couser to open the guillotine doors
- Staff generally does not reach inside enclosures
- Couser has worked around Kimba for approximately 6 months
- Couser has volunteered at Big Cat Rescue for approximately 5 years and works there approximately 2 days a week
- Couser is aware of Kimba's temperament towards males, and knows better than to approach his enclosure
- Couser has been through a number of certification/signoffs from Big Cat Rescue in order to obtain qualification to feed big cats

Conclusion

The following is a conclusion of the incident based on the evidence gathered to date:

On December 3rd, 2020 at approximately 0830 hrs. Couser was conducting a routine feeding for Kimba when she noticed that Kimba was locked out of part of the enclosure which allowed access to where Couser had placed the food. Couser walked the perimeter of the enclosure and observed a tunnel with closed guillotine doors on each end that was preventing Kimba from having access to where Couser had placed the food. Couser radioed the on-site coordinator about the situation but did not receive an answer, and proceeded to open the guillotine doors. Couser opened the guillotine door closest to

Kimba, allowing him access into the tunnel. Couser then attempted to open the second guillotine however, she noticed it was clipped shut on the inside of the tunnel preventing it to open. Couser reached inside the enclosure tunnel with her left arm placing her back towards Kimba and allowing Kimba access into the tunnel and Couser's arm. Kimba proceeded to bite Couser's left arm multiple times, inflicting significant injuries before letting go. Several staff members and volunteers responded to Couser and provided first aid until she was transported to St. Josephs Hospital.

The following was obtained from Big Cat Rescue training records: "At no time, under any circumstances, will any part of your person come into direct contact with any animal at Big Cat Rescue. Safety: No part of your person shall ever come within reach of any animal at Big Cat Rescue. Modifying Enclosures: No person shall make modifications to any enclosure without direct instruction from the Volunteer Coordinator, Operations Manager, President or CEO. (see attached)."

Since the incident this facility has altered their procedures when locking animals out of enclosures allowing only approved individuals key access to unlock/lock enclosures.

End or report, no further action taken.
